

**Job Title: CAD Drafter**

**Location:** Bozeman, Montana

**Company:** Allied Engineering Services, Inc. (AESI)

**About Us:** We are a 100 percent employee owned civil engineering company dedicated to delivering innovative and sustainable engineering solutions. Our team is composed of industry leaders who are passionate about making a positive impact on the world.

**Job Description:** AESI is seeking a full-time CAD Drafter with 2+ years training and/or experience in AutoCAD and Civil3D to join our team in our Bozeman, Montana office.

**Salary Range:** \$60k - \$80k, Depends on Experience

**Responsibilities:** This position will perform a wide range of land surveying and civil engineering related CAD duties in support of surveyors, project managers, and engineers. This person must be quality-oriented and willing to work on a variety of projects. This person must be a motivated, personable, hard-working, and self-directed team player.

**Minimum Qualifications:**

- Minimum 2 years of experience in AutoCAD Civil3D.
- Strong working knowledge of land survey drafting, including use of survey databases, linework coding, and surface creation workflows.
- Experience preparing Boundary, ALTA, topographic, and plat maps from survey data.
- Associate's degree in Computer Aided Design Drafting or related field is preferred. Autodesk Certification is beneficial.
- Requires excellent computer and technical skills. Microsoft Office Suite (Word and Excel minimum) are required. Proficiency in AutoCAD Civil 3D 2022 (or newer) required.
- Must possess analytical aptitude and communication skills (written and verbal).
- Ability to read, analyze, and interpret land survey documents, engineering plans, and specifications.
- General understanding of civil engineering design, construction processes, and land surveying processes is beneficial.
- Survey field experience is beneficial; preference given to candidates who are LSIT certified or on track to obtain certification

---

**What We Offer:**

- Competitive salary and benefits package.
- Employee ownership (ESOP)
- Opportunities for professional growth and development.
- A collaborative and inclusive work environment.
- The chance to work on exciting and impactful projects.
- See <https://alliedengineering.com/careers/> for further benefit details

**How to Apply:** Interested candidates are invited to submit their resume and cover letter to Greg Finck, PLS, Principal Surveyor at [gfinck@alliedengineering.com](mailto:gfinck@alliedengineering.com) with the subject line "CAD Drafter Application."
