Job Title: Civil Engineer

Location: Billings, MT (may require some travel)

About Us: We are a 100% employee-owned, multi-disciplinary engineering company dedicated to delivering innovative and sustainable engineering solutions. Our team is composed of industry leaders who are passionate about making a positive impact on the world.

Job Description: AESI desires a Civil Engineer to contribute to growing our Billings, MT team.

Salary Range: \$70,000 - \$125,000, Depends on experience and education level

Key Responsibilities:

- Help establish and grow AESI's presence in the Billings market.
- Build and strengthen long-term relationships with clients, communities, and industry partners.
- Pursue opportunities to expand services and enhance client value.
- Coordinate with clients, regulatory agencies, contractors, surveyors, and project stakeholders throughout the project life cycle.
- Support business development efforts through client relationships management, proposal preparation, and identification of new opportunities.
- Plan, design, and manage civil engineering projects.
- Prepare and review technical reports, construction documents, specifications, and engineering calculations.
- Collaborate well with multidisciplinary teams including survey, geotechnical, and water resources professionals in a hybrid work environment.
- Complete projects both independently and as part of a team.
- Efficiently utilize information technology such as Autodesk Civil 3D, ArcGIS, mobile applications, specialized design software, and Microsoft Suite for engineering tasks.
- Attend and lead meetings with clients, contractors, and regulatory agencies.

Qualifications:

- B.S. in Civil Engineering.
- Excellent computer and technical skills.
- Strong understanding of design standards, regulatory requirements, and industry best practices.
- High level of personal responsibility, accountability, and analytical aptitude.
- Quality-oriented & desire to contribute to office growth and business development.
- Interpersonal skills to meet and communicate effectively (written & verbal).
- Positive attitude and professional bearing.

What We Offer:

- Competitive salary and benefits package.
- <https://alliedengineering.com/careers/> for further benefit details.
- Employee ownership (ESOP).
- Opportunities for professional growth and development.
- A collaborative and inclusive work environment.
- The chance to work on exciting and impactful projects.
- An energetic and positive atmosphere focused on growing the business of our new branch office.

How to Apply: Interested candidates are invited to submit their resume and cover letter to Jeff Ticknor, PE, at JTicknor@alliedengineering.com with the subject line "Civil Engineer Application."
